

California Bridge Construction Forum

2002

The Caltrans Office of Structure Construction (OSC), in partnership with Bridge industry contractors is planning the Second Annual California Bridge Construction Forum. The specific intent of this forum is to build on our success of last year and improve communication and encourage collaboration between contractors and Caltrans in improving processes and standards. The format of this forum will be the same as last year, including both open discussion and discussion focused on predetermined topics. The focus of this forum will be bridge construction related issues. Details are on the attached announcement.

An agenda committee has been established to organize this forum and consists of representatives from both industry and Caltrans OSC. Topics will be selected by the agenda committee, based on your input. The members listed below are available to you if you have any questions about the forum.

Name	Company	Phone	E-Mail
Jon Rohrer	Caltrans OSC	949 724-2059	Jon_Rohrer@dot.ca.gov
Jim Alfieri	Caltrans OSC	707 576-6739	Jim_Alfieri@dot.ca.gov
Dan Baker	CC Myers	916 635-9370	dbaker@ccmyers.net
John Diskin	E.L. Yeager	909 684-5360	cdawley@elyeager.com
Mike Eckert	FCI	858 481-6900	meckert@flatironstructures.com

All attendees of last year's forum found it worthwhile and a great opportunity to give input to Caltrans. The breakout groups were successful and the discussions were meaningful to contractors and Caltrans alike.

We hope to see you there!
